ECHO CHICAGO

AT THE FOREFRONT UChicago Medicine

PEDIATRIC ADHD & AUTISM

ECHO Series

By providers, for Illinois providers:
A community for problem solving with expert support

ECHO-Chicago (Extension for Community Health Outcomes) is a statewide live virtual online workforce training and capacity-building program housed at the University of Chicago that focuses on promoting use of evidence-based best practices in clinical and non-clinical settings.

Select Topics:

- **Making the diagnosis of ADHD in primary care**
- **Making the diagnosis of Autism Spectrum Disorder (ASD) and the role of the PCP**
- **Behavioral interventions**
- **ADHD medication management: Stimulants, second-line medications and alternative medication interventions**
- **Family interaction: What to tell a family of a child with a new diagnosis of autism.**
- **Management of children & youth with comorbid conditions i.e. anxiety & depression**
- **Sleep problems in children & youth with ADHD and/or ASD**
